Our story -

Totsters came into idea from situations faced during our co-founder's wedding, wherein there wasn't much for the kids to do as it was an adult centric event. Kids ended being on the phone or running around and playing with water bottles (The closest to toys they found at venue). Parents were stressed out taking care and couldn't enjoy the festivities. This is how idea behind Totsters was born with a simple motto -

"Make every event kids friendly"
